GRAN VIA

FIRA GRAN VIA

Fira Gran Via is one of the largest and most modern Exhibition and Conference Centre in Europe, and also one of the most highly-rated by organisers, exhibitors and visitors from all over the world.

Designed by Pritzker Prize Japanese architect Toyo Ito, it combines a spectacular appearance with respect for the environment and provides an efficient yet creative solution to the needs of exhibitors and visitors alike.

The venue covers an area of 198,500 m² distributed among eight halls and three independent accesses. Hall 8 is home to the Gran Via Convention Centre, an area of 24,500 m² equipped with soundproof panels that its flexibility lets create multiple rooms being the maximum size of 2,500 seats. In total there are 70 rooms available.

Larger events can also be hosted using its adjacent halls. Specially Hall 6, a multipurpose pavilion that can be turned into a real plenary room of 3,600 seats extendible to 5,600.

HOW TO GET THERE

VENUE

Located just 3 kilometers from Barcelona's historic city center, Fira Gran Via is ideally situated in a newly redeveloped business district. The expansive and modern venue is conveniently linked by the local public transport network to both the metropolitan downtown and nearby El Prat International Airport (12 km).

Its outstanding features include renowned architecture, modern functionality and commitment to sustainability. The venue comprises of an impressive rooftop photovoltaic installation stretching across its eight inter-connected pavilions. The inspiring South Entrance holds the acclaimed Nucló Restaurant and leads exhibition visitors to the upper walkway. This free-flowing design both maximizes connectivity and gives exhibitors and visitors unparalleled access to Fira Gran Via's cutting-edge event services and logistics capacity.

AIRPORT

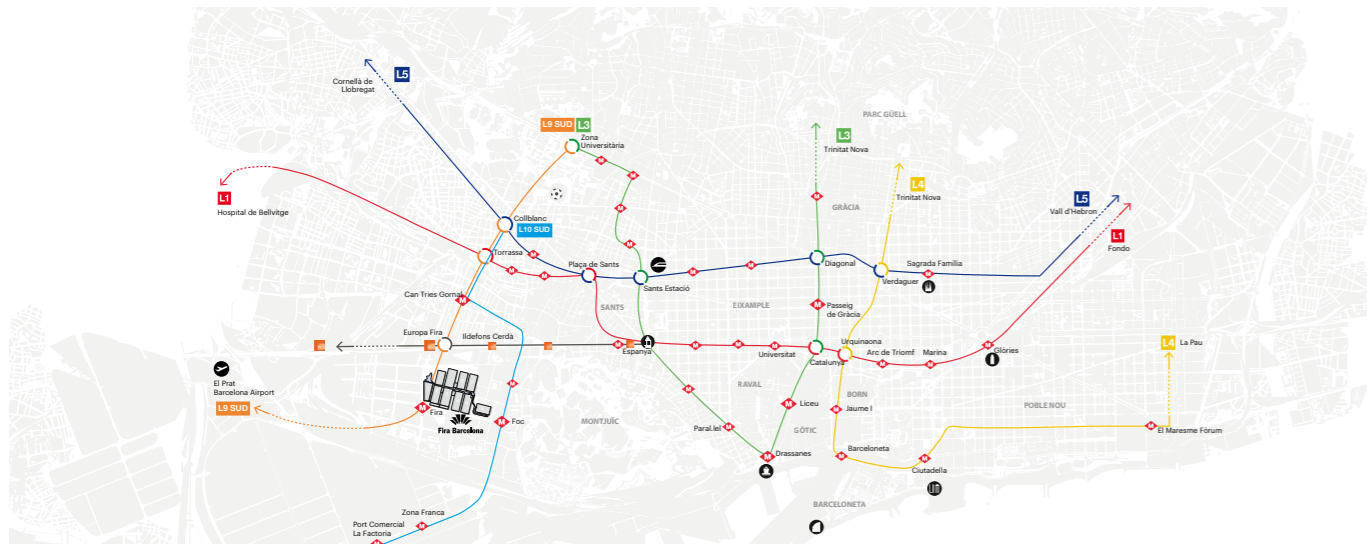

Barcelona Airport handles more than 800 flights per day to 141 destinations (30 intercontinental) and over 47 million passengers per year in 2017. It is accessible directly from Fira Gran Via thanks to the Metro line 9 and 10, train and bus connections.

HOTELS

Barcelona city offers in 2018 more than 40,000 rooms in all categories, and has new projects for around 2,500 more to be completed in the coming years. There are some 1,345 hotel rooms built already in a walking distance around the venue, increasing to more than 5,000 rooms within a perimeter of 3km.

TRANSPORT

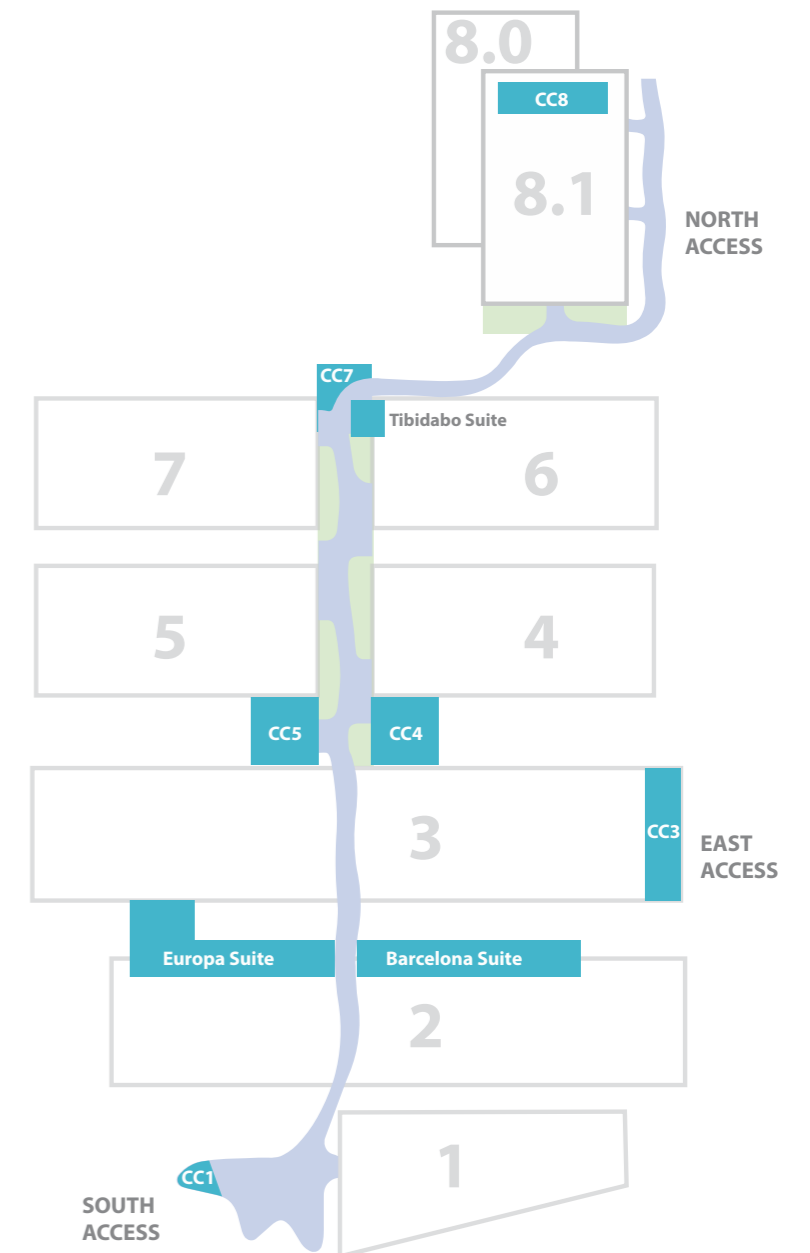

Fira Gran Via is easy to reach by public transport. The venue has three Metro stations (L9 and L10) connecting the airport and the city center and it is also connected through FGC Regional Train to Barcelona downtown and surroundings. Barcelona has 10,500 taxis and attendees can easily find taxi ranks right in front of South, North and East accesses.

EASY FLOW

Gran Via's walkway is an easy and pleasant way to cross the venue and access all facilities located on the first floor.

It connects Conference Centers, Multipurpose Rooms, catering outlets, terraces and it helps enormously on the attendee's sense of direction within the venue.

SUSTAINABILITY

The architectural design of the venue made use of various sources of natural energy with the aim of maximizing sustainability and reducing the impact on the environment. As the ultimate exponent of this trend, Fira Barcelona has a photovoltaic plant of 165,000 m2 which avoids the annual emission of 2,047 tons of CO2 and generates enough energy to power 980 standard family homes.

WIFI & INTERNET

All our facilities are equipped with the most advanced installations that deliver up to 10 Gb to anywhere in the venue with a permanent overall internet throughput of 20 Gbps. At the same time, a state-of-the-art network of wireless antennae integrated in the cable network provides 802.11ac coverage to every hall to fully satisfy the technology needs of every event organizer.
